

**SVA T01**

**CAPAC 05**

**ADT HPS50**

## KIT SVA-K05

### SVA kit independent of the remote alarm

Coupled with the **CAPAC** autonomous sensor and connected to the **ADT HPS50** loudspeaker, the **SVA module T01** announces the levels at the arrival of the lift car on the floor.

#### SVA T01

- Floor Announcer
- Simplified Commissioning by Voice Guide
- Top-of-car mounting

#### CAPAC

- Autonomous sheath sensor
- Indication of the position of the elevator car

#### ADT HPS50

- Remote speaker
- COP mounting
